## **Continuity of Learning Plan Updated for the 2022-23 School Year**

For the 2022-23 school year, North Central Area Schools will continue to use face to face, in-person learning as its primary mode of instruction for the North Central Elementary School and the North Central Middle/High School.

NCAS's entire learning community believes face to face instruction is best to keep pupils at the center of educational opportunities. NCAS will provide all students access to educational instruction in a classroom setting, food service and monitor pupil learning.

Standard yearly budget practices will be used to implement face to face/in-person learning.
